

For Universities — Program One-Pager

THE OFFER

Career support for international studies programs.

We partner with international relations, global studies, and international affairs programs to give your students the career coaching, job board, and community they need to break into the field. You don't have to hire a specialist career advisor. We handle the placement layer.

PARTNERSHIP

Three ways we support your program

Career coaching at scale

Your students access a vetted network of international affairs professionals. They book sessions, run mock interviews, and get strategy help. You hire no one.

Track placement outcomes

Quarterly we report interviews booked, hires, time-to-hire, and top employers. Use it for accreditation, rankings, and donor conversations.

A community built for them

Students join a private community of IR peers from other universities. Job intel, peer support, sustained engagement across four years.

PRICING

\$20 per student per month

Minimum 50 students per cohort. Annual commitment with semester options. Either the university funds the subscription, or students pay a \$20/mo fee billed to the university. Either way, students have zero friction.

50 students	\$1,000/mo	\$12,000/year
100 students	\$2,000/mo	\$24,000/year
200 students	\$4,000/mo	\$48,000/year

DELIVERABLES

What's included
